

TANK FUEL APPROVED

containment basin 110%

Diesel Tanks, TANK FUEL CUBE 70B.SMART 1X, homologated by the Ministry of Internal Affairs according to Italian law 3704/1366/80/37/44), D.M. 19/03/90 and D.M. 22 November 2017.

Steel tanks for Diesel fuel storage and delivery, homologated by Italian Ministry of Interior. Horizontal cylindrical mono-skin tanks manufactured by using shell plates and dished ends made of carbon steel quality S235JR according to UNI EN 10025, watertight electro-welded (submerged arc welding process), provided with anti-roll supports, primed with a rust-preventing layer and externally treated with two coats of primer and a final finish of two coats of synthetic metallic GREY paint. Tanks are delivered pressure-tested and ready to use. Equipment: collection basin able to hold 110% of total quantity of the tank, bottom discharge with cap, 1" suction hose with no-return valve and calibrated spring, suction filter, 1" ball valve, manhole 400mm diameter with a 3-inch opening with a lockable brass bayonet fastening and a 90% load limiting valve, 1" 1/2 vent with brass fire-barrier terminal, mechanical floating level indicator, minimum level pump locking device, electric panel, plug for the connection of the earth cable, service ladder (with non-slip steps, handrail for TF 5.000-7000-9000 or grab handle for TF 1200-2000-3000). A protection roof is available (as option) made of a tubular metal galvanised profile and cover. A water separator filter is also available for all versions (as option)

Electronic delivery group

CUBE 70 B.SMART Electronic delivery group with nominal flow rate 70 lt / min, equipped with self-priming pump with built-in filter, digital flow meter with +/- 0.5% accuracy, delivery hose mt. 4, automatic dispensing nozzle and minimum level pump block. With CUBE B.SMART you have a hardware system with integrated software, completely managed in the Cloud. No complex installation on PC is required: B.SMART works in the cloud to allow you to manage your fleet from anywhere and monitor all fuel transactions in real time. Communication between CUBE B.SMART, Phone App and Cloud Software is very simple. Once the B.SMART App is open, the Android or iOS mobile device automatically connects to the diesel dispenser to allow the driver to refuel. During delivery, the driver can monitor the quantity dispensed directly on the mobile device and, once completed, can view the virtual receipt, which will be sent in real time to the web app.

The fleet manager will be able to monitor all the deliveries in real time, through the simple and immediate graphic interface of the Software Cloud.

The basic version includes 10 accesses (drivers) expandable in packages of 10 accesses.
